GUIDE to CLAIMING BENEFIT on HOME GROWN FEED GRAIN

Crow Benefit Offset Program
11th Floor, Park Square
10001 Bellamy Hill
Edmonton, Alberta
T5J 3B6

Phone: 422-0015

NOTE

This brochure is intended to provide step-by-step instructions to assist you in completing claims for home grown grain fed to livestock. It does not replace the official regulations set out in the brochure of Program Conditions. In cases of difference between the interpretation in this guide and the provisions of the Program Conditions, all decisions will be based on the Program Conditions.

The "Alberta Crow Benefit Offset Program Conditions" brochure is available from all district offices of Alberta Agriculture.

Steps to follow when completing claims

NOTE: Staff at the district offices of Alberta Agriculture are prepared to assist you in completing green shaded areas of the claims.

-  Check the preprinted identification data on the top of your personalized CLAIM FORM. See page 6 if this information has changed or if you require a personalized form.
-  Complete the claim period dates by entering the date on which this claim period ended. The claim period may include one or more calendar quarters and ends on one of the following dates: September 30, December 31, March 31, or June 30.

Copy your registration number and the claim period dates on each STATEMENT OF GRAIN FED and on each FEEDER and SLAUGHTER SUMMARY.
-  If you are claiming benefit on grain fed to feeder or slaughter cattle, lambs or horses, complete a FEEDER and SLAUGHTER SUMMARY for each group sold during the claim period. See pages 12 - 15 for instructions.
-  Complete one line on STATEMENT OF GRAIN FED for each group of livestock for which you are claiming feed grain. Follow the instructions in the appropriate "HOW TO" section, pages 8 to 24.
-  Transfer ⑩, "Total tonnes of Feed Grain Claimed" to ① on the front page of the claim.
-  Take your original receipts for livestock included in the claim and the forms to the district office of Alberta Agriculture. If you have completed only the white areas, the staff will assist you with the remainder of the calculations. Your receipts will be copied and your claim checked for completeness.

REMEMBER that you are responsible for the accuracy of the information in the claim. Get answers to any questions about the claim and the information you submit **before** you sign the Statutory Declaration.

- WHO:** can claim benefits under the Farm Fed Option of the Alberta Crow Benefit Offset Program?
- Livestock and/or poultry producers who feed home grown grain in Alberta, and are registered under either the Farm Fed option or both Farm Fed and Certificate Options of the program.
- WHAT:** is eligible under the Program?
- Eight feed grains (wheat, oats, barley, rye, triticale, grain corn, peas, faba beans), by-products derived from these grains and all screenings.
 - Benefit can be claimed for these grains after they are fed:
 1. to maintain breeding herds/flocks, or;
 2. to produce livestock, or products such as eggs or milk, which have been sold.
 - Benefit on grain fed by a custom feeder **CANNOT** be claimed by the livestock owner.
- WHERE:** do I register?
- If you are registered under the Alberta Feed Grain Market Adjustment Program, your registration will be continued under the Alberta Crow Benefit Offset Program.
 - Information about the program and forms required to register are available through district offices of Alberta Agriculture. To avoid delays and to ensure that you have all required documents available, it is recommended that you phone ahead and arrange an appointment.
- WHY:** is this benefit being paid to livestock feeders?
- This payment is made by the Alberta government to help the local feed grain market remain competitive with markets outside Alberta. The payment offsets the distortion of the local feed grain market caused by the federal payment of the Crow Benefit to the railways on grain shipped by rail.
- WHEN:** can benefits be claimed?
- **After** registering, participants receive personalized claim forms by mail. These can be obtained from the program office in Edmonton, but must be submitted through district offices of Alberta Agriculture. They may be submitted after the end of any calendar quarter or combination of two or more quarters. Quarters end on September 30, December 31, March 31, and June 30.
 - Submitted forms are replaced with new forms when the claim has been processed at head office.

HOW MUCH benefit can be claimed?

Measuring feed grain in pounds

Your claim for grain fed must be completed in pounds of grain. The following formula can be used to convert bushels of dry grain to pounds.

$$\text{Bushels of dry grain} \times \frac{\text{pounds per bushel}}{\text{(bushel weight)}} = \text{pounds of dry grain}$$

Example: $\left(\begin{array}{l} 10 \text{ bushels of} \\ \text{dry oats} \end{array} \right) \times 31 \text{ pounds per bushel} = 310 \text{ pounds of dry oats}$

The bushel weight of feed grain is often less than that of dry graded grain. Use the actual bushel weight of your feed grain if available.

If you do not know the bushel weight of the grain you are feeding, weight a unit, such as a pailful, and multiply this weight by the number of units (pails) fed.

The table below shows the standard bushel weight for each of the 8 eligible grains.

<u>GRAIN</u>	<u>POUNDS PER BUSHEL</u>	<u>GRAIN</u>	<u>POUNDS PER BUSHEL</u>
wheat	60 pounds	triticale	52 pounds
oats	34 pounds	corn	56 pounds
barley	48 pounds	faba beans	56 pounds
rye	56 pounds	peas	60 pounds

Receipts

Proof of sale is required with all claims except those for grain fed to maintain livestock for breeding or pleasure. Submit copies of original receipts with claims.

Claims for benefit for grain fed to purchased feeder cattle, lambs, and horses; feedlot cows; and replacement chickens require copies of original purchase receipts.

Acceptable receipts must include:

- (a) name of registrant
- (b) name of purchaser and/or seller,
- (c) date of sale or purchase
- (d) name of product sold or purchased
- and, (e) number of units sold or purchased (litres, dozen, pounds, or kilograms, as required).

- Where livestock is purchased or sold on a per head basis, estimated weights may be used.
- Claims which include hogs sold to the Alberta Pork Producer Marketing Board must be accompanied by the APPMB summary(s) of sales which are eligible for benefit. These summaries are mailed quarterly to hog producers and are the required documentation.
- In cases where the claim forms requires “pounds” purchased or sold, convert kilograms to pounds by multiplying the number of kilograms by 2.2.

Example: $20 \text{ kilograms} = 20 \times 2.2 = 44 \text{ pounds.}$

Allowable limits

Benefit can be claimed on the amount of eligible feed grain which you grew and fed to livestock. For each type of livestock the maximum amount of feed grain for which you will receive benefit is called the **allowable limit**. If you fed more grain than this limit, you can claim benefit on this portion of the total grain which you fed.

For some livestock groups the allowable limit is given in terms of number of units sold.

Example: The allowable limit for Easter lambs is 50 pounds of feed grain **per head sold**.

If you sold 25 Easter lambs, you would not be paid benefit on more than $25 \times 50 = 1250$ pounds of feed grain.

For other livestock groups the allowable limit is given in terms of the number of days on which grain was fed.

Example: The allowable limit for sows is 6.2 pounds of feed grain **per head per day**.

If you fed 10 sows for 6 days each, you would not be paid benefit on more than $6.2 \times 10 \times 6 = 372.0$ pounds of feed grain.

A chart showing numerical days for this claim year (July 1, 1987 to June 30, 1988) is given on page 5. To calculate the number of days between two dates such as January 4 and March 18, subtract the numerical value of the first date from the numerical value of the second date and add 1 to the result.

Example: January 4 = 188 the number of days between these
March 18 = 262 dates is $262 - 188 + 1 = 75$ days.

A list of allowable limits for each type of livestock is given on page 25. The codes shown are used for identification of these livestock on claims. More details of each group description are given in sections of this guide which show "HOW TO" claim benefit for each livestock type.

Completion of the CLAIM FORM for HOME GROWN FEED GRAIN

- Claims must be submitted on personalized forms sent from head office in Edmonton. If you need a replacement for a claim form or have not received one, you can phone personally or ask your local district office to phone the Edmonton office. Replacement forms are sent every time a claim is processed and approved for payment.
- Each claim requires a CLAIM FORM (shown below) plus supporting STATEMENT(s) of GRAIN FED.
- FEEDER and SLAUGHTER SUMMARIES are required with claims for grain fed to feeder and slaughter cattle, feeder and slaughter lambs, and slaughter horses.

		CLAIM FORM FOR HOME GROWN FEED GRAIN <small>ALBERTA CROW BENEFIT OFFSET PROGRAM</small>	REGISTRATION NUMBER
Identification data	APPLICANT 	LAND DESCRIPTION: _____	TELEPHONE NUMBER: _____
		D.A. CODE: _____ COUNTY CODE: _____ REGISTRATION OPTION: _____	CLAIM PERIOD OF THIS CLAIM FROM MONTH/DAY/YEAR TO MONTH DAY YEAR

Please read the "GUIDE TO CLAIMING BENEFIT ON HOME GROWN FEED GRAIN", before completing this claim.

1. Total TONNES of FEED GRAIN CLAIMED (from STATEMENT of GRAIN FED)	1	2	
2. Subtract TONNES of Non-Qualifying Grain (See Guide page 7)	-	3	
Net TONNES of FEED GRAIN ALLOWED		=	3

Complete Section 3 below, only if you have purchased grain using "A" certificates since September 1, 1985

3. Deductions for feed grain purchased with "A" certificates

A. Total TONNES of "A" certificate grain delivered from September 1, 1985 to end of last claim period.	4	5	
B. Total TONNES of "A" certificate grain delivered during this claim period.	+	6	
C. Total TONNES of home grown feed grain on which benefit has been paid on previous claims.	+	7	
D. Total TONNES of purchased and home grown feed grain allowed on previous claims.	-	8	
E. TONNES of certificate grain to be deducted from this claim (A+B+C-D)	=	8

Identification data:

- The information which identifies you on the program is preprinted on your personalized claim form. If any of this information is incorrect or has changed, cross it out and write the correct information beside the error.
- Major name changes, i.e. addition or elimination of an individual require a letter of explanation from the parties involved.
- The first day of this **claim period** is also preprinted. If you have claimed previously, this is the day after the closing date of your previous claim. If you have not claimed previously, this is the first day for which you can claim benefit.
- The first day of a claim will be January 1, April 1, July 1, OR October 1.
- Dates should be written as month/day/year (Jan 04/87) you can claim benefits at the end of each calendar quarter or combine claims to include 6 months, 9 months or 12 months.
- The closing date of the claim period can be March 31, June 30, September 30, OR December 31.
- Your registration number and the dates of the claim period, as completed on the front of the CLAIM FORM, must appear on each page submitted.
- You will not be paid benefit on grain fed to animals after the closing date of a claim.

Calculation of benefit

NOTE: District office staff can assist with the following calculations.

The second part of the front page allows you to calculate the payment you are claiming. This part of the claim requires information which is calculated on the STATEMENT OF GRAIN FED. Complete it after all livestock groups have been entered on the STATEMENT OF GRAIN FED and the Total Tonnes of Feed Grain Claimed have been calculated.

- ① Transfer the Total Tonnes of Feed Grain Claimed, ⑩, from the STATEMENT(s) OF GRAIN FED.
- ② Non qualifying grain is the grain included in 1 above which is NOT either home-grown or purchased with A certificates.
- ③ Net grain allowable is the number of tonnes of feed grain which qualifies for benefit. $① - ② = ③$. This is the total of feed grain included on the STATEMENT OF GRAIN FED which is home grown or purchased with A certificates.

If you have used A certificates to purchase feed grain since September 1, 1985, calculate the deductions for this benefit by completing ④ to ⑦ as shown below.

If you have not purchased feed grain using A certificates, omit ④ to ⑧ below.

- ④ (Preprinted) The number of tonnes of feed grain which you purchased using A certificates between September 1, 1985 and the closing date of your last claim.
- ⑤ Enter the number of tonnes of feed grain which you have purchased using A certificates during the claim period covered by this claim.
- ⑥ (Preprinted) The number of tonnes of home grown feed grain on which benefits have previously been paid under both this program and the Alberta Feed Grain Market Adjustment Program.
- ⑦ (Preprinted) The total number of tonnes of feed grain on which you have previously received benefit. This includes the number of tonnes of feed grain purchased with certificates or benefits received for home grown feed grain under both the previous program (AFGMAP) and the Crow Benefit Offset program.
- ⑧ The certificate benefits which you have received since the end of your last claim are equal to $A + B + C - D$. Enter this number of tonnes in space ⑧.
A "0" will be preprinted in ⑧ if you have not purchased feed grain using A certificates.
- ⑨ The number of tonnes of home grown feed grain claimed on this claim is equal to ③ – ⑧. Enter this difference in ⑨.
Multiply the number of tonnes in ⑨ by \$13 to calculate the benefit you are claiming.

Statutory Declaration

This part of the claim is very important. No payment can be made without the Statutory Declaration being completed.

The Commissioner for Oaths at the district office of Alberta Agriculture will read the oath to you. Be sure that you understand the oath before signing. This oath is legally binding.

You are swearing that the total amount of grain for which you are claiming benefit, ⑨, was grown and fed to livestock in Alberta on land owned, rented or leased by yourself or the entity you represent on this program.

How to claim benefit for grain fed to DAIRY CATTLE

Complete the STATEMENT OF GRAIN FED as outlined to the right.

- Choose a group description from the list which describes dairy cattle to which you fed grain during the claim period.
- Complete one line for each group of cattle as shown in the example.
- Claim cattle together if they were fed grain at similar rates for similar lengths of time.
- Use the same group description and code more than once if required.
- Claims for grain fed to milk and cream cows **require sales receipts** for milk and cream.

- Enter the lesser of the “Calculated grain ALLOWED” or the “pounds of grain fed” in column ⑩.
- Calculate the number of pounds of feed grain ALLOWED for milk and cream cows by multiplying the number of units of production sold by the allowable limit (given on page 25).

$$1 \times \left(\begin{array}{c} \text{No. of litres} \\ \text{Milk Sold } \textcircled{14} \end{array} \right) = \text{Calculated grain ALLOWED for Milk Cows}$$

$$29 \times \left(\begin{array}{c} \text{No. of kgms.} \\ \text{Cream Sold } \textcircled{14} \end{array} \right) = \text{Calculated grain ALLOWED for Cream Cows}$$

- Calculate the grain ALLOWED for dry cows, dairy bulls, and replacement heifers by multiplying:

$$\begin{array}{c} \text{Allowable limit} \times \left(\begin{array}{c} \text{no. of animals} \\ \text{fed grain } \textcircled{12} \end{array} \right) \times \begin{array}{c} \text{no. of days} \\ \text{fed grain} \end{array} = \begin{array}{c} \text{Calculated} \\ \text{grain ALLOWED} \end{array} \\ (10 \text{ lbs/hd/day}) \end{array}$$

- Use the numerical days chart on page 5 to calculate the number of days between the dates when grain feeding began and ended.

Example for DAIRY CATTLE

MILK COWS	01	Enter the average number of cattle which were fed grain during the claim period.	omit	Enter the no. of litres of milk SOLD	Enter the total number of pounds of grain fed during the claim period to the cattle in the group described.	District office staff can assist you with this column. Claim the lesser of the number of pounds of grain fed ¹⁵ OR the calculated grain ALLOWED as shown on page 8.
CREAM COWS	02		omit	Enter the no. of kgms. of butterfat SOLD		
DRY COWS	03		Enter the month/day/year on which grain feeding began and ended. The dates cannot be outside the claim period.	omit		
DAIRY BULLS	04	omit				
REPLACEMENT HEIFERS	05	omit				
CULLED COWS AND HEIFERS	DO NOT claim benefit for grain fed to animals culled from the herd during the claim period. Benefit is based on the quantity of milk or cream sold – NOT the number of animals. DO NOT include dairy culls in Feeder and Slaughter claims.					
DAIRY STEERS	Claim benefit for grain fed to dairy steers only after they are SOLD. Include them as Feeder and Slaughter Cattle (See pages 12-15 for instructions)					

How to claim benefit for grain fed to BREEDING BEEF CATTLE

Complete the STATEMENT OF GRAIN FED as outlined to the right.

- List only those animals that have been fed grain.
- Choose the code that best describes a group of animals at the **end of the claim period**.
- Use the same code more than once only if there are significant differences in feeding levels and dates of grain feeding.
- Animals previously claimed as breeding beef cattle, which were sold during the claim period can **NOT** be included as Feeder and Slaughter Cattle.
- Sales receipts must be available on request.
- Enter the number of animals **on hand at the end of the claim period** for codes 20, 22 and 24 in ⑰ on the bottom of STATEMENT OF GRAIN FED.
- Enter the breed(s) of your beef herd in ⑰.

- Enter the lesser of the “Calculated grain ALLOWED” or the “pounds of grain fed” in column ⑱.

- Calculate the number of pounds of feed grain ALLOWED by multiplying the allowable limit (given on page 25) by the number of cattle in the group and by the number of days for which grain was fed.

$$\text{Allowable limit} \times \left(\begin{array}{c} \text{number of cattle} \\ \text{fed grain } \textcircled{12} \end{array} \right) \times \begin{array}{c} \text{number of days} \\ \text{fed grain} \end{array} = \begin{array}{c} \text{Calculated} \\ \text{grain ALLOWED} \end{array}$$

- On September 30 and most of December 31 claims, the daily maximums are the allowable limit. In addition there is an ANNUAL limit that must be considered on claims ending on March 31 and June 30.

Example for BREEDING BEEF CATTLE

Note: Read the "Guide to Claiming Benefit on Home Grown Feed Grain" before completing this form.
Additional copies of this form are available from your local District Agriculture Office.
Attach this statement(s) to the CLAIM FORM.

10 GROUP DESCRIPTION			11 CODE	12 NO. OF ANIMALS	13 DATES GRAIN FED		14 UNITS OF PRODUCTION SOLD	15 TOTAL LBS. OF FEED GRAIN FED	16 LBS. OF FEED GRAIN CLAIMED
					MONTH/DAY/YEAR	MONTH/DAY/YEAR			
Culled heifers			21	9	July 1/87	Sept. 30/87	—	81.00	81.00

ON HAND	COWS BRED HEIFERS HERD BULLS	20	Enter the number of: - cows, bred heifers, and herd bulls which were fed grain; and were on hand at the end of the claim period.	Enter the month/day/year on which grain feeding began and ended. The dates cannot be outside the claim period.	omit	Enter the total number of pounds of grain fed during the claim period to the cattle in the group described.	District office staff can assist you with this column. Claim the lesser of the number of the pounds of grain fed ¹⁵ OR the calculated grain ALLOWED as shown on page 10.
CULLED & SOLD	COWS BRED HEIFERS HERD BULLS	21	- animals from your breeding herd that were fed grain and SOLD during the claim period.				
ON HAND	REPLACEMENT HEIFER CALVES	22	- heifer calves being kept for breeding purposes. They must have been fed grain and be on hand at the end of the claim period.				
CULLED & SOLD	REPLACEMENT HEIFER CALVES	23	- replacement heifers originally kept for breeding purposes, that were fed grain and SOLD during the claim period.				
ON HAND	BREEDING STOCK FOR SALE	24	- purebred on commercial cattle kept for sale as breeding stock, fed grain, and on hand at the end of the claim period.				
BREEDING STOCK SOLD		25	- purebred or commercial cattle raised for sale as breeding stock. SOLD during the claim period.				

How to claim benefit for grain fed to FEEDER and SLAUGHTER CATTLE

- Feeder and slaughter animals must be **SOLD** before the benefit can be claimed.
- **SALES RECEIPTS** and (where applicable) purchase receipts must be submitted with claims.
- Purchase and sale weights must be in **pounds liveweight**. Convert dressed weight to liveweight using the following conversions.

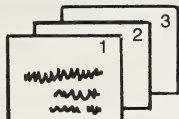

$\text{Steers and heifers} \text{ — dressed weight} \times 1.71 = \text{liveweight}$
 $\text{Feedlot cows} \text{ — dressed weight} \times 2.0 = \text{liveweight}$
- If cattle are sold out of your feedlot, use the actual sales weight from the invoice.
- If cattle are put into a custom feedlot use the weight at which they enter the feedlot. Supporting documentation from the feedlot must be provided.
- **DO NOT** claim benefit for grain fed to your cattle while they are being custom fed by someone else.
- **DO NOT** include calves sold at less than 450 pounds on the FEEDER and SLAUGHTER SUMMARY. Claim any grain fed to these animals under code 37 (beef calves) or code 38 (dairy calves) on the STATEMENT OF GRAIN FED.
- The minimum weaned-purchase weight for **dairy steers** and **beef calves** is 450 pounds. Claim the grain fed to these calves before 450 pounds under code 37 or 38 on the STATEMENT OF GRAIN FED.
Claim this grain **ONLY** after the cattle are **SOLD**.
- **DO NOT** claim culls from the beef breeding herd or the dairy herd on the FEEDER and SLAUGHTER SUMMARY. Claim culled cows, heifers, and bulls from your beef herd under code 21. Claim culled replacement heifer calves under code 23.
- **Feedlot cows** are cows purchased for the purpose of fattening for resale. Cows culled from your breeding herd are claimed under code 21 on the STATEMENT OF GRAIN FED. **Purchase and sales receipts must be provided.**

Example of a FEEDER and SLAUGHTER SUMMARY

- Complete a **separate** FEEDER and SLAUGHTER SUMMARY for each type of animal fed in a similar manner.

Example: Slaughter animals never pastured would be on a different SUMMARY than feeder calves that were sold off pasture.

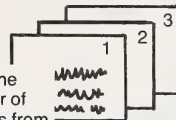

List sales invoices by name or number for feeder or slaughter cattle sold by the pound during the claim period. DO NOT include **culled** dairy cattle, **culled** beef cattle, or calves sold at less than 450 lbs.

Enter the number of animals from each invoice that were fed in a similar manner.

Enter the sale weight in pounds liveweight OR weight at which animals entered a custom feedlot.

- Show where animals sold in Part I came from.
- List home-raised animals as HR.
- List invoices by name or number.

Enter the number of animals from each invoice.

Enter the purchase weight in pounds. Estimate the weight of home-raised animals when placed on grain. Minimum weaned/purchase weight to be used is 450 pounds.

FEEDER and SLAUGHTER SUMMARY

ALBERTA GROW BENEFIT OFFSET PROGRAM

NOTE: Read the "Guide to Claiming Benefit on Home Grown Feed Grain" before completing this form. Additional copies of this form are available from your local District Agriculture Office. Attach this summary(s) to the CLAIM FORM and the STATEMENT OF GRAIN FED.

5		
6		
7		
8		
9		
10		
11		
12		
TOTAL NO. OF ANIMALS WEANED-PURCHASED D	46	
TOTAL WEANED-PURCHASED WEIGHT E		23644

PART III CODE ALLOCATION	
AVERAGE SALES WEIGHT (Box B Divided by Box A)	C 1041
CODE (use average sales weight to pick appropriate code and transfer to Statement of Grain Fed)	32

AVERAGE WEAN-PURCHASE WEIGHT (Box E Divided by Box D)	F 514
---	-------

PART IV UNITS OF PRODUCTION SOLD - CALCULATION	
IF THE NUMBER OF ANIMALS IN (A) (PART I) EQUALS THE NUMBER OF ANIMALS IN (D) (PART II) THEN TOTAL WEIGHT GAIN OF ANIMALS SOLD (H) EQUALS TOTAL WEIGHT OF ANIMALS SOLD (B) MINUS TOTAL WEANED-PURCHASE WEIGHT (E)	
[B - E = H]	H 18972
OTHERWISE	
AVERAGE SALES WEIGHT	C 1041
MINUS	
AVERAGE WEANED-PURCHASED WEIGHT	F 514
EQUALS	
AVERAGE WEIGHT GAIN	G 527
TIMES	
TOTAL NO. OF ANIMALS SOLD	A 36
EQUALS	
TOTAL WEIGHT GAIN OF ANIMALS SOLD	H 18972
TRANSFER TOTAL WEIGHT GAIN (H) TO UNITS OF PRODUCTION SOLD 14 ON STATEMENT OF GRAIN FED.	

See the group descriptions for codes 30-36 on page 15. Enter the appropriate code for the group of cattle SOLD.

If you listed more animals in Part II than you sold during the claim period (Part I), use the AVERAGE WEAN/PURCHASE WEIGHT to calculate the weight of animals being carried forward.
e.g. If A = 36 and D = 46, enter 10 head in space 24 on your next claim. Their total weight 24 = 10 x 514

Completing the STATEMENT OF GRAIN FED for FEEDER and SLAUGHTER CATTLE

NOTE: A FEEDER and SLAUGHTER SUMMARY must be completed for each group of cattle sold (see page 12).

- Complete one line on the STATEMENT OF GRAIN FED for each group of cattle sold. Transfer the code, ②⑤, and the Total Weight Gain of animals (H) from a completed SUMMARY.
- If you have sold **beef calves** or **dairy steers** which average less than 450 pounds, enter them on the STATEMENT OF GRAIN FED only. Benefit for these calves is based on the number of days of grain feeding, so there is no need to calculate weight gain.
- Calves claimed as code 37 or 38 which are not also included in a FEEDER and SLAUGHTER SUMMARY require sales receipts.

Custom Feedlots

Feedlots in the business of feeding cattle for others may claim benefit for grain fed in either of two ways:

1. The grain fed may be claimed when the cattle are sold. In this case the claim is prepared as outlined for feeder and slaughter cattle. Documented weights entering the feedlot and/or purchase receipts must be provided as well as sales documentation.
 2. The claim for grain fed may be made on a quarterly “as fed” basis if the documentation as outlined in either (a) or in (b) below is provided.
 - (a) Monthly invoices to cattle owners which include head day numbers, and feed grain quantity calculations, and the amount of weight gained.
Close-out sheets on groups of cattle that have left the feedlot may be used to provide documentation.
 - OR (b) Custom feedlot transaction documents which are available at district offices. These documents provide calculations of pounds gained and head days, and must either be signed by the cattle owner or supported by monthly feed bills.
- In either (a) or (b) above the total live weight gain achieved and the number of head days must be determined.
 - Grain fed may be estimated, however, the actual weight of grain fed from feed sheets should be used when available.
 - A recognized custom feedlot may claim grain fed to their own cattle on an “as fed” basis with the permission of the program administrator.
 - Use the average weight of cattle at the end of the feeding period to identify the correct code, ①①, if they are not sold.

• Enter the lesser of the “Calculated grain ALLOWED” or the “pounds of grain fed” in column ①⑥.

- Calculate the number of pounds of feed grain ALLOWED for each group of cattle.

$$\text{Allowable limit } \times \left(\frac{\text{Units of Production}}{\text{Sold } ①④} \right) = \text{Calculated grain ALLOWED}$$

(see page 25)

- Calculate the feed grain ALLOWED for beef calves and dairy steers under 450 pounds as follows:

$$\text{Allowable limit } \times \left(\frac{\text{no. of calves}}{\text{fed grain } ①②} \right) \times \frac{\text{number of days}}{\text{fed grain}} = \text{Calculated grain ALLOWED}$$

(see page 25)

- Use the numerical days table on page 5 to calculate the number of days between the dates when grain feeding began and ended.

Example for FEEDER and SLAUGHTER CATTLE

⑮

⑯

Include animals that were pastured and were also fed grain. They must be sold during the claim period in these weight ranges.

FEEDER CALVES 450-699 lbs.	30
HEIFERS 700 - 849 lbs.	
STEERS 700 - 999 lbs.	31
MIXED 700 - 924 lbs.	
HEIFERS over 849 lbs.	
STEERS over 999 lbs.	32
MIXED over 924 lbs.	

Include animals that have NOT been pastured and have been fed grain.

FEEDER CALVES 450 - 699 lbs.	33
HEIFERS 700 - 849 lbs.	
STEERS 700 - 999 lbs.	34
MIXED 700 - 924 lbs.	
HEIFERS over 849 lbs.	
STEERS over 999 lbs.	35
MIXED over 924 lbs.	

FEED LOT COWS – purchased cows and heiferettes that have been fed grain and sold for slaughter during the claim period.

	36
--	----

Include animals that were fed grain before they weighed 450 lbs.

BEEF CALVES under 450 lbs.	37
DAIRY STEERS under 450 lbs.	38

CUSTOM FED CATTLE – Use documentation (a) or (b) described on page 14 to identify code and complete columns.

One of the above.

No. of cattle fed grain during the claim period OR head days.

omit

Total no. of lbs. gain (liveweight)

Number of pounds of grain documented.

Transfer **B** from "Feeder and Slaughter Summary"

omit

Transfer **H** from "Feeder and Slaughter Summary"

Enter the total no. of pounds of grain fed to the animals SOLD during the claim period.

District office staff can assist you with this column.

Claim the lesser of the number of pounds of grain fed ^⑮

OR

the calculated grain ALLOWED as shown on page 14.

How to claim benefit for grain fed to HOGS

Complete the STATEMENT OF GRAIN FED as outlined on the right.

- Choose a group description from the list which describes hogs to which you fed grain during the claim period.
- Complete one line for hogs which were fed grain
 - a) for the same purpose
 - and b) at similar rates for similar lengths of time.
- **Sales receipts must be submitted** with claims for grain fed to hogs claimed as SOLD.
- Convert dressed weight to liveweight for market hogs by multiplying by 1.27
$$\text{dressed weight} \times 1.27 = \text{liveweight}$$
- Units of production sold, ⁽¹⁴⁾, must be in pounds liveweight. Convert kilograms to pounds by multiplying by 2.2
$$\text{no. of kilograms} \times 2.2 = \text{no. of pounds}$$

- Enter the lesser of “Calculated grain ALLOWED” or the “pounds of grain fed” in column ⁽¹⁵⁾.
- Calculate the number of pounds of feed grain ALLOWED for each type of hogs as follows:
$$\text{SOWS, BOARS AND REPLACEMENTS} = 6.2 \times (\text{no. of days } ^{(13)}) \times \text{no. of hogs}$$
$$\text{MARKET HOGS SOLD} = 3.5 \times (\text{lbs. live weight sold } ^{(14)})$$
$$\text{WEANERS/FEEDERS SOLD} = 50 \times (\text{no. of hogs sold } ^{(14)})$$
$$\text{GILTS AND BOARS SOLD} = 760 \times (\text{no. of hogs sold } ^{(14)})$$

Example for HOGS

District office staff can assist you with this column. Claim the lesser of the number of pounds of grain fed ^⑮ OR the calculated grain ALLOWED as shown on page 16.
MARKET HOGS SOLD	41	– hogs SOLD for slaughter (index 67 or more) during period.	omit	Enter the no. of lbs. live weight SOLD.	Enter the total no. of pounds of grain fed to the animals SOLD.	
WEANER/ FEEDERS SOLD	42	– hogs under 100 lbs. SOLD during claim period.	omit	Enter the number of animals SOLD.		
GILTS AND BOARS SOLD	43	– breeding stock SOLD during the claim period. NOT CULLS.	omit			
DO NOT claim grain fed to culled breeding herd animals. Benefit is paid on these while they are in the breeding herd.						
FEEDERS SOLD at over 100 lbs.	Claim benefit for grain fed to these hogs under CODE 99 (OTHER LIVESTOCK) Benefit will be assessed based on sales weights shown on the receipts.					
BRED GILTS SOLD at over 250 lbs.						

How to claim benefit for grain fed to BROILERS, DUCKS, GEESE, OR TURKEYS

Complete the STATEMENT OF GRAIN FED as outlined to the right.

- Choose a group description from the list which describes birds to which you fed grain during the claim period.
- Benefit can be claimed for grain fed to birds which were SOLD during the claim period. **Sales receipts are required.**
- Convert pounds dressed weight to pounds liveweight using the following conversions:
 - Cornish broilers — dressed wt. $\times 1.47 =$ liveweight
 - Regular broilers — dressed wt. $\times 1.39 =$ liveweight
 - Roasters — dressed wt. $\times 1.37 =$ liveweight
 - Ducks — dressed wt. $\times 1.43 =$ liveweight
 - Geese — dressed wt. $\times 1.43 =$ liveweight
 - Turkey broilers — dressed wt. $\times 1.25 =$ liveweight
 - Tom turkeys — dressed wt. $\times 1.25 =$ liveweight
 - Hen turkeys — dressed wt. $\times 1.25 =$ liveweight
- If receipts are in kilograms, convert the weight to pounds
 $\text{no. of kilograms} \times 2.2 = \text{no. of pounds}$

- Enter the lesser of the “Calculated grain ALLOWED” or the “pounds of grain fed” in column ⑯.
- Calculate the number of pounds of feed grain ALLOWED for each group of birds by multiplying the allowable limit (listed on page 25) by the number of pounds of liveweight sold, ⑭.

$$\text{Allowable limit} \times \left(\frac{\text{lbs liveweight sold } ⑭}{\text{sold } ⑭} \right) = \text{calculated grain ALLOWED}$$

Example for BROILERS, DUCKS, GEESE, or TURKEYS

RACE, SHOW WORK HORSES	81					
PLEASURE and LIGHT WORK HORSES	82					
SLAUGHTER HORSES	83	– purchased horses which were fed grain and SOLD during the claim period.	omit	Transfer H from the "Feeder and Slaughter Summary"	Enter the total number of pounds of grain fed to the horses SOLD.	

- Enter the lesser of the "Calculated grain ALLOWED" or the "pounds of grain fed" in column ⑯.
- Calculate the number of pounds of feed grain ALLOWED for all horses except SLAUGHTER HORSES by multiplying the allowable limit (given on page 25) by the number of horses fed grain and the number of days fed grain.

$$\text{Allowable limit} \times \left(\frac{\text{number of horses fed grain } ⑫}{\text{fed grain}} \right) \times \left(\frac{\text{number of days fed grain}}{\text{fed grain}} \right) = \text{Calculated grain ALLOWED}$$
- Calculate the number of pounds of feed grain ALLOWED for SLAUGHTER HORSES by multiplying the allowable limit (8 lbs per lb gained) by the number of pounds of live weight gained.

How to claim benefit for grain fed to SHEEP

Complete the STATEMENT OF GRAIN FED as outlined to the right.

- Choose a group description from the list which describes lambs to which you fed grain.
- Claim animals together which were fed grain at similar rates for similar lengths of time.
- Use the same group description and code more than once if required.
- Claims for grain fed to feeder or slaughter lambs sold must be accompanied by a completed FEEDER and SLAUGHTER SUMMARY. Follow the instructions given for feeder and slaughter cattle on pages 12 - 15.
- Claims for grain fed to purchased feeders must be accompanied by purchase **and** sales receipts.
- Convert kilograms to pounds by multiplying by 2.2.
$$\text{Number of kilograms} \times 2.2 = \text{number of pounds}$$
- Convert dressed weight of market lambs to liveweight by using the following:
$$\text{Dressed weight} \times 2 = \text{liveweight}$$

- Enter the lesser of the “Calculated grain ALLOWED” or the “pounds of grain fed” in column ⑩.
- Calculate the number of pounds of feed grain ALLOWED for breeding herd sheep by multiplying the allowable limit (given on page 25) by the number of head fed grain and the number of days grain was fed.
$$\text{Allowable limit} \times \left(\begin{array}{c} \text{number of head} \\ \text{fed grain } \textcircled{12} \end{array} \right) \times \left(\begin{array}{c} \text{number of days} \\ \text{fed grain} \\ \text{ALLOWED} \end{array} \right) = \begin{array}{c} \text{Calculated} \\ \text{grain ALLOWED} \end{array}$$
- Calculate the number of pounds of grain allowed for feeder, market or Easter lambs SOLD by multiplying the allowable limit (given on page 25) by the pounds of live weight gained or the number of head sold as required.
- The ANNUAL maximum per breeding herd animal is 300 pounds of grain. This must also be considered on claims ending on March 31 or June 30.

Example for SHEEP

STATEMENT OF GRAIN FED ALBERTA CROW BENEFIT OFFSET PROGRAM

REGISTRATION
NUMBER

BREEDING EWES, RAMS and REPLACEMENTS	90	Enter the number of: – ewes, rams, and replacements fed grain during the claim period.	Enter the month/day/year on which grain feeding began and ended in the claim period.	omit	Enter the number of pounds of grain fed during the claim period.	District office staff can assist you with this column. Claim the lesser of the number of pounds of grain fed ⁽¹⁵⁾ OR the calculated grain ALLOWED as shown on page 22.
HOME-RAISED LAMBS SOLD AS FEEDERS or MARKET LAMBS	91	– lambs SOLD as feeders or slaughter lambs during the claim period.	omit	Enter the TOTAL WEIGHT GAIN of ANIMALS SOLD (H) from the "FEEDER and SLAUGHTER SUMMARY."	Enter the total number of pounds of grain fed to the lambs SOLD.	
PURCHASED FEEDERS SOLD AS MARKET LAMBS	92	– purchased lambs SOLD for slaughter during the claim period.				
EASTER LAMBS SOLD (30-55 lbs. liveweight)	93	– lambs SOLD for slaughter in this weight range.		Enter the number of head SOLD during the claim period.		
CULLED BREEDING HERD	DO NOT claim benefit for grain fed to animals culled from the herd. Benefit is paid on grain fed to ewes and rams while they are part of the breeding herd.					
BREEDING STOCK RAISED FOR SALE	Claim benefit for grain fed to those animals with your breeding herd. Sales receipts must be available upon request.					

How to claim benefit on grain fed to OTHER LIVESTOCK

- If you fed grain to a type of livestock for which details have not been outlined, contact either your local district office or head office for guidance.
- In some cases, OTHER may include types of livestock listed previously but raised for a **different purpose**.
- Allowable limits have been established for the following categories.

Dairy goats	1 lb/l. milk sold
Pheasant breeders	80 lbs/bird/year
Pheasant meat birds	4.5 lbs/lb live weight sold
Duck breeders	100 lbs/bird/year
Goose breeders	150 lbs/bird/year
Quail	1.35 lbs./lb live wt. sold
Turkey Breeding Female	185 lb/bird
Turkey Breeding Male	365 lbs/bird
- **Sales receipts are required** with claims for grain fed to livestock which was sold, and for grain fed to produce eggs or milk for sale.

TABLE OF ALLOWABLE LIMITS
